# 🏠 BINTALK™ Quick Install Guide

1. ## Connect your BinTalk sensor

Take your sensor out of the box and open the BarnTalk app. If you don't see the BinTalk sensor listed under your Gateway, tap the gear icon and choose "Add Sensor".

2. ## Enter your BinTalk settings

Next, follow the prompts in the app to fill out your bin details. We'll walk you through the rest with a few easy steps!

3. ## Clip your sensor to the bin collar

Attach the sensor straight up and down near the lid's hinges. Use the two self-tapping screws to secure it tightly.

NOTE: BinTalk wakes within 6 hrs. of installing. For a faster reading within 1 hr, open the solar panel cover and press the pairing button.
If BinTalk is connected to your Gateway, **'L1' light will flash green** after 10-15 seconds.

If **'L2' flashes red**, contact Support at 515-272-5122.

Just 2 More Steps ⟶

4. Secure the solar panel

Attach the magnetic solar panel on the side with **the most sunlight.**

**Route the cord outside the bin** to prevent it from getting pinched.

*Place solar panel with the **cord at the bottom**.*

5. Label your bin

Use a permanent marker to label the bin number and serial number. Stick it onto your bin, and you're all set!
