

Improve Efficiency and Performance

with  **BARN**TALK®

Easy Adoption

Streamline production with user-friendly technology made for all ages and experience levels.

Scalable Solution

Rapidly deploy real-time monitoring and data collection across every site to improve efficiency.

Automate Data

Reduce dependence on manual data entry, including feed orders, water consumption, high/low temps, and more.

Inform Decisions

Leverage real-time insights from every farm to improve performance and productivity.

“We see BarnTalk as a barn management tool in addition to an alarm.”

Lynn Becker

Production Manager
