Minimizing the Footprint

Agriculture accounts for 10% of global GHG emissions. **BarnTalk offers real-time data solutions** to help poultry and swine producers meet protein demand sustainably.

73% of GHG emissions from poultry and swine production are from **feed use**.

Feed truck emissions are the most significant contributor.

UNIVERSITY OF MISSOURI STUDY:
Wireless feed sensors
↓ **feed waste 50%**
& ↓ **feed costs 10%.**

BINTALK™

Track **feed inventory in real-time** to eliminate unnecessary deliveries and reduce emissions.

TRACK WATER USAGE

Use BarnTalk to **monitor trends in water usage overtime** and optimize resource use.

INDUSTRY FOOTPRINT:

468 gal. per *lb.*

576 gal. per *lb.*

IMPROVE GROWTH AND PERFORMANCE

Monitor **growing conditions across every site** for improved efficiency, animal welfare, and sustainable resource use.
